## NEW YORK ONEIRIC

### Meat Packing District emotion

Meatpacking District, Chelsea Market, High Line, Chinatown: New York City. In New York Oneiric, everything can happen at once. The city invented itself: an industrial bridge, fire escapes, ladders of survival, walls with memory."New York City" sign appears fully on top of the bridge – the visual feels like a dream layered over time. As if New York were not a single city, but many, stacked and breathing.
